SUMMARY

Women's Day celebration held on March 11, 2024 was a vibrant and empowering event that celebrated womanhood. The theme of the program was "Devi Ahilya ka Sushashan". The program was organized under the guidance of Dr. Sangeeta Jain, Director IMS, in which Dr. Jain started the program by sharing very interesting stories related to Devi Ahilya and her rule.

Thereafter, the keynote speaker, Dr. Sharwani (heritage resource educator, researcher) narrated the biography of Maa Ahilya and her governance from the perspective of management. Her speech mentioned various management topics that Devi Ahilya established during her tenure, which are still useful today, such as: self-employment, skill development, human resource management, tax, investment and law and order. Dr. Sharwani, through her lecture, surprised the students by elaborating the good governance of Goddess Ahilya and opened many doors for research on this topic.

All the women workers in the institute were honored by presenting Tulsi plant and gifts to motivate and encourage all the women to keep moving forward in life all the time.

On the occasion of International Women's Day, Softude Global IT Consulting and Services Company, supporting the joint national theme of Investing in Women, gave a testimony to women's education and empowerment by providing scholarships on merit basis to three MBA FT students. To encourage the selected students, Mr. Sunil Rawat (Founder Softood), Sunita Kishanani ji and Vinita Parayani ji attended the program

The event celebrated women through inspirational keynote speeches, beautiful dance performances and words in the form of poetry. The women of IMS were welcomed with roses, handwritten messages and gifts. Attendees left the festival feeling inspired, empowered and motivated.
